

Safety before and after training for children

We work hard to ensure the safety of your children but we cannot be responsible for them before and after training times.

Some children play in the school playground before training, including using the school playground apparatus. Unfortunately, we cannot be responsible for their safety in the playground so please make sure that you are supervising them at this time.

If you have made arrangements for your child to travel home without you or to meet you outside of the school grounds please could you let us know as we are not comfortable letting them leave until we know that such arrangements have been made if you are not there to collect them.
